

PORTABLE BOLLARD BASE SYSTEM

RubberForm's Bollard Base System made in the USA from 100% post-consumer recycled rubber and plastic. Combined with our recycled plastic bollard sleeve, they make an excellent choice for Green or LEED certified building projects.

Our portable Bollard Base System can be deployed anywhere and is ideal for parking lots, parking garages, crosswalks, schools, shopping malls, grocery stores, plazas, universities, hospitals, airports, construction sites, government facilities and more! Use it anywhere portable or a semi-permanent bollard posts are needed.

RubberForm's Bollard Systems use our durable sign base designed with a low center of gravity to ensure its ability to stay upright in severe weather and light enough to be tipped and rolled to another location.

Key Features

- Aerodynamic design – low center of gravity withstands strong winds
- Enhances safety and minimizes liability
- Supports any sign up to 24"
- Portable and easy to install – just tip and roll
- Made in the USA with 100% American recycled rubber
- Impact and weather resistant – will not warp, chip, crack, spall or corrode

Made in the USA
